Upscale Freehold Townhome in the Huron area with enchanting features and details all around. The upgraded lighting and gorgeous laminated flooring all through out the whole house, except in the stairs to the second floor, makes this house very enjoyable and relaxing. The kitchen has the perfect colour combination with white cabinets, glass backsplash, and black stainless steel appliances together with a island and breakfast bar making this area suitable to enjoy with family and friends. Off the living room the glass sliding door leads to the raised 15 x 17 Deck, and the fenced yard. In the second floor you will be blown away with the views from the balcony off the master bedroom. The fabulous ensuite bathroom and the custom made closet cabinetry in the walk-in closet gives this room the perfect touch. Additionally there are two spacious bedrooms and the main bathroom. Location is great as it is just minutes 15 mins away from the 401, and 5 to shopping centres, and the soon to be built South Kitchener
